DISCOVER A WHITER BRIGHTER SMILE

Boutique Whitening is a premium quality whitening gel that delivers superior results, with a noticeable improvement in just a few days.

Boutique Whitening has been designed to fit in with your lifestyle. Now you can whiten your teeth, your way.

You can opt for Boutique By Day, which works with only 1 hour wear time per day. Alternatively, you can choose Boutique By Night and whiten your teeth as you sleep.

UNIQUELY ENGINEERED WHITENING GEL

There are a number of key features that make Boutique Whitening the number one choice for many dentists and patients:

- Boutique use the highest strength formula available for rapid results
- pH neutral gels to protect the teeth
- Integrated potassium nitrate to reduce sensitivity
- High water content to keep teeth hydrated
- Thicker gels to prevent saliva-washout

HOW DOES IT WORK?

Boutique Whitening uses a double action formula to give you a beautiful white smile.

Our gels break down to form Oxygen ions that remove surface stain, whilst also penetrating deep into the tooth, whitening from the inside out.

HOW WHITE WILL MY TEETH GO?

Because everyone is unique, and their teeth are different shades to begin with, you must see your dentist who will explain which product will work best for you, and what results can realistically be achieved.

Ask your dentist today about Boutique Whitening.
